PROFILE

Data Scientist with hands-on experience in data analysis, machine learning, statistical modeling, predictive analytics, and business intelligence. Skilled in transforming raw data into actionable insights through data cleaning, exploratory data analysis (EDA), feature engineering, visualization, and predictive modeling. Proficient in Python, SQL, Pandas, NumPy, Scikit-learn, Power BI, Tableau, and Excel. Experienced in developing data-driven solutions that improve decision-making and business performance.

TECHNICAL SKILLS

- **Programming & Tools:** Python, C++, SQL, HTML, CSS , PHP, Django, Node js , Javascript, React Js, Git, GitHub, Jupyter Notebook, VS Code, Docker, AWS
- **Machine Learning:** Supervised Learning, Unsupervised Learning, Classification, Regression, Clustering, Feature Engineering, Model Evaluation, Cross Validation, Hyperparameter Tuning
- **Algorithms:** Logistic Regression, Random Forest, XGBoost, Support Vector Machines (SVM), Decision Trees
- **Deep Learning:** TensorFlow, Keras, PyTorch, Neural Networks
- **NLP:** NLTK, SpaCy, Text Preprocessing, Sentiment Analysis, Tokenization, Word Embeddings
- **Computer Vision:** OpenCV, Image Processing, Object Detection Basics
- **Data Analysis:** Pandas, NumPy, Matplotlib, Seaborn, Exploratory Data Analysis (EDA), Data Cleaning
- **Deployment & Visualization:** Streamlit, FastAPI, REST API, Power BI, Tableau, Excel Dashboards

PROFESSIONAL EXPERIENCE

Junior Python Full Stack Developer, *Druv360°*

05/2026 – Present

Ernakulam

- Developed, tested, and maintained scalable Python applications following clean coding and software development best practices.
- Collaborated with frontend developers and UI/UX designers to build and integrate responsive, user-focused web applications.
- Designed and implemented reusable, efficient, and maintainable code to support application scalability and performance.
- Debugged, troubleshooted, and resolved application issues to improve system reliability and functionality.
- Worked with databases and REST APIs for efficient data management, integration, and application communication.
- Participated in code reviews, team discussions, and development activities while following established coding standards and best practices.

Data Analyst / Data Science Associate, *Techolas Technologies Pvt Ltd*

2024 – 2025

Calicut

- Worked in a relevant AI & ML engineering role, contributing to end-to-end ML workflows.
- Performed EDA, data cleaning, and feature engineering on structured datasets.
2024 – 2025 Calicut
- Built and evaluated ML models using Logistic Regression, Random Forest, XGBoost and achieving 91% accuracy on structured datasets.
- Tuned models using hyperparameter optimization to improve prediction performance.
- Evaluated models using accuracy, precision, recall, and F1-score metrics.
- Developed and deployed interactive ML applications using Streamlit.
- Created Power BI dashboards to communicate analytical insights to stakeholders

Web Designer & Developer (Internship – 6 Months), Zonemac Solutions	2024 Calicut
- Designed and developed responsive, user-friendly websites using HTML, CSS, JavaScript, and PHP. - Developed dynamic web pages and database-driven functionality using XAMPP and MySQL. - Collaborated on UI/UX enhancements to improve website usability, responsiveness, and overall user experience. - Optimized website performance and page loading speed to improve responsiveness and accessibility.	
Junior Accountant, Team Thai Aghin Road Ways	2023 – 2024 MAHARASHTRA
- Managed accounts, GST entries, and invoice preparation. - Worked with financial data, improving accuracy in reporting and reconciliation. - Provided insights to support business and logistics decisions.	

PROJECTS

Two-Wheeler Brand Prediction System
Technologies: Python, Pandas, Scikit-learn, Streamlit
- Built an end-to-end machine learning system to predict suitable two-wheeler brands based on user preferences. - Performed data preprocessing, encoding, feature engineering, and model training. - Implemented algorithms including Random Forest and Logistic Regression. - Achieved 91% prediction accuracy after hyperparameter tuning. - Deployed the application using Streamlit for interactive predictions.
Speaking Dictionary with Translation & Text-to-Speech
Technologies: Python, NLTK, WordNet, GoogleTrans API, gTTS, Streamlit
- Developed a multilingual dictionary application with speech output capability. - Implemented NLP techniques using NLTK and WordNet for word processing. - Integrated translation functionality using GoogleTrans API. - Built a user-friendly interface using Streamlit with real-time speech output.
Sales & Profit Dashboard – Sofidel Group
Technologies: Excel, Pivot Tables, Data Visualization
- Designed an interactive sales dashboard using Excel Pivot Tables, slicers, and charts. - Analyzed key KPIs including total sales, profit margin, and regional performance. - Enabled faster business decision-making through clear data visualization.
Frontend-Focused Projects & Applications, Personal & Academic Projects
- Built and deployed a React + Vite portfolio website showcasing projects, skills, and contact features. - Implemented component-based UI, responsive layouts, and optimized build performance using Vite. - Integrated interactive elements and clean navigation for better user experience.

EDUCATION

DATA SCIENCE & MACHINE LEARNING	2024 – 2025
Techolas Technologies Pvt Ltd	Calicut, Kerala
CERTIFIED FINANCE TECHNICIAN	2022 – 2023
BYNCO ACADEMY	Calicut, Kerala
BACHELOR OF COMMERCE IN FINANCE	2019 – 2022
Sahya Arts And Science College	Malappuram, Kerala
